PROJECTS

Flipkart Clone | *HTML, CSS, JavaScript VS Code* — May 2023
- This was made using simple HTML , Bootstrap and JavaScript
- Objective of making this website was to learn HTML CSS and JavaScript

Portfolio Website | *HTML, CSS, JavaScript, VS Code, Google Firebase* — Nov. 2023
- I   made a personal portfolio website using simple HTML CSS and JavaScript.
- Formulated a learning journey centered on hands-on website creation; implemented cutting-edge features and animations using HTML, CSS, and JavaScript, leading to a comprehensive skill set and a notable improvement in web development proficiency. DEMO OF THIS APP IS GIVEN IN THE HEADER SECTION.

Blog App | *React Js, MongoDB, NodeJs, ExpressJs* — Jan. 2024 – Present
- To enhance my web development skills, I aim to master the MERN stack—comprising MongoDB, Express.js, React.js, and Node.js—to build robust and scalable applications.
- My goal is to build an app that features a smooth registration, followed by login, and blog pages with sections for Vlogs and My Vlogs where Users can browse, create, edit, and delete vlogs as needed.
